

THE TOMORROW PEOPLE

3
SET

The Long-Lost British Sci-Fi Classic

The teenagers in *THE TOMORROW PEOPLE* didn't merely maintain galactic order—they broke new ground in sci-fi history.

Roger Price's cult-classic, *THE TOMORROW PEOPLE* takes viewers deep into 1970's futurism with ingenious trans-temporal plots and groundbreaking sci-fi sets. This '70's hit remains cutting-edge through its probing and modern themes, from the dangers of reworking history to the politics of protecting the earth. SET THREE features the final adventures of these intergalactic teens as they save the earth from cataclysmic destruction.

First shown on Thames Television in 1973, audiences still marvel at this nostalgic throwback series. Now available on DVD, *THE TOMORROW PEOPLE: SET 3* includes the conclusive sixth, seventh and eighth seasons, plus an outstanding documentary, *Beyond Tomorrow*.

- The final three seasons of the British sci-fi classic, never before released in North America.
- This four-pack includes 16 new episodes and an exclusive *TOMORROW PEOPLE* documentary that examines the '70s classic through interviews with original cast.
- This series has nostalgic appeal for audiences in their 30s, while also appealing to younger audiences who watched the show on Nickelodeon in the '90s.
