The True Story Behind the Blockbuster Film

300

The true story of the epic battle that inspired the famed graphic novel and major motion picture.

As one of the most famous last stands in history, the battle of Thermopylae is still discussed today for its influence on Western civilization, brilliant military maneuvers, and well-trained and fearless army of 300 soldiers. Following the success of the blockbuster hit *300*, THE HISTORY CHANNEL® presents a detailed account of this legendary battle, examining the events leading up to the conflict and the tactical expertise that allowed the outnumbered Greeks to stall their Persian foes.

Combining sophisticated digital animation and live actors in strikingly realistic reenactments, LAST STAND OF THE 300 narrates one of the most important—and improbable—battles in history.

- Timed to release alongside the DVD of the feature film *300*, LAST STAND OF THE 300 is the true story behind Frank Miller's best-selling graphic novel.
- The feature film *300* has broken box office records and is the strongest March movie opening ever.
- Includes interviews with top historians and authors, sharing insights on one of the most famous last stands of all time.
- This detailed account from THE HISTORY CHANNEL® goes far beyond the standard documentary reenactments by combining live actors, digital animation, and virtual sets.
