**SYNOPSIS** Seventeen-year-old Sara (Katee Sackhoff, 24, *Battlestar Galactica*) has been madly in love with popular classmate Brian (Sage Brocklebank) ever since pre-school and dreams of marrying him. Problem is, he doesn't know she exists. When a solar eclipse inexplicably sends them from high school in 1990 to their actual wedding day in 2007, Sara (now in her mid-30s) discovers that, somehow, her wish came true. With their "grown-up" careers in full swing –the couple realizes they are not at all prepared for what adulthood has in store. Is it possible that Sara and Brian are really fated to be together? Or should they follow a less certain path in their new lives, and risk falling for other people?
