

JOURNEY TO 10,000 B.C.

Art Not Final

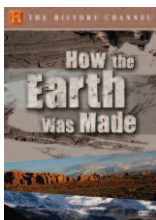

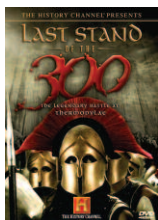

New DVD companion to the blockbuster movie *10,000 B.C.*

10,000 B.C. was a time of cataclysmic change on Earth. Extreme climactic fluctuations hurled the planet into a minor ice age; megafauna like the saber-toothed tiger and woolly mammoth were suddenly becoming extinct; and early humans began to inhabit North America. For these cavemen, the slaughter of a single mammoth could be the difference between survival and death.

In a major forensic investigation, JOURNEY TO 10,000 B.C. brings this unique and thrilling period to life, and investigates the geologic and climactic changes that scientists are just beginning to understand.

- Timed to release with the DVD of the blockbuster *10,000 B.C.*, to tell the real story of life on earth during that era.
- In an in-depth forensic investigation, HISTORY® uncovers fossilized bones, ancient homes, and weapons of stone.
- Using state-of-the-art green-screen computer animation and stunning visual effects, JOURNEY TO 10,000 B.C. recreates one of the first environmental crises faced by man.
- JOURNEY TO 10,000 B.C. premiered to over 2.1 million viewers.
