

# LIFE AFTER PEOPLE

## The most watched program in the history of THE HISTORY CHANNEL® is now on DVD

If humans were to suddenly disappear, what would happen to our planet—the structures we've built, the everyday items we take for granted, animals—domesticated and wild, plants, trees? What would become of the things that define our species and leave our mark on this Earth?

Visit the ghostly villages surrounding Chernobyl (abandoned by humans after the 1986 nuclear disaster), travel to remote islands off the coast of Maine to search for abandoned towns that have vanished from view in only a few decades, then head beneath the streets of New York to see how subway tunnels may become watery canals.

THE HISTORY CHANNEL® takes you on an amazing visual journey in LIFE AFTER PEOPLE, a thought-provoking adventure that combines movie-quality visual effects with insights from experts in the fields of engineering, botany, ecology, biology, geology, climatology, and archeology to demonstrate how the very landscape of our planet will change in our absence.
