

SYNOPSIS This series continues to explore the fascinating dark side of the Ocean. Four episodes present the complete and definitive story of the world's oceans through the prism of its *Five Deadly Forces*...Tides and Currents, Pressure, Waves, and Predators. These are the Ocean's unpredictable governing powers, deadly forces that have brought terror and destruction throughout history. Each episode explores a different deadly force while mapping its awesome past and contemporary presence throughout the Pacific, Atlantic, Indian, Southern and Arctic Oceans.
