### The hit "American Originals" series is finally on DVD

Explore the past and present of the rough-and-tumble logging industry in the first-ever non-fiction series about the treacherous lives of Pacific Northwest timber cutters, AX MEN.

For more than a hundred years, larger-than-life characters, many of whom are members of logging families that go back to the time when the West was being settled, have spent their days among towering trees and powerful machines and their nights in outposts far from the comforts of civilization. Snapped cables, runaway logs and deadly machinery are among the many dangers that threaten their lives and safety today. Follow four logging crews through a season in the remote forests of northwest Oregon and see how, plagued by mechanical failures, relentless weather and violent and unpredictable terrain, these men risk their lives every day in a constant struggle of man versus nature.

- From the producers of the hit series and bestselling DVD set *Ice Road Truckers*, AX MEN is the first-ever non-fiction series about the dangerous logging industry.
- Backed by a multi-million dollar ad campaign, this new series follows the exciting lives of four crews as they race to make the most money in the logging season.
- Shot on-location in hi-definition, each episode features stunning footage of North American wilderness.
