## **An explosive film that reopens the case on one of America's top political prisoners**

Innocent or guilty? This explosive documentary reopens the case on one of America's top political prisoners, fearlessly exposing a broken justice system that has confined Mumia Abu-Jamal to death row for over 25 years. MUMIA ABU-JAMAL: A CASE FOR REASONABLE DOUBT? dares to ask whether this radical journalist and Black Panther with no prior criminal record was treated fairly by the Philadelphia police and prosecutors for a murder he may not have committed. Biting, yet poetic, this powerful film blows gaping holes in the credibility of the case against Mumia while giving the man himself room to air his provocative political and social views.

- From award-winning director John Edginton (*Robyn Hitchcock: Sex, Food, Death ...and Insects*).
- An intimate look at the former Black Panther and America's most infamous death row inmate.
- Supporters include such luminaries as Paul Newman, Spike Lee, Maya Angelou among many others.
- Released to coincide with Mumia Abu-Jamal's court of appeal that commences on May 17, 2008.
