

THE UNIVERSE

THE COMPLETE SEASON ONE

The stunning, best-selling set is finally available on Blu-ray Disc

As the Earth grapples with the effects of global warming, science has increasingly looked to outer space for answers to the glaring threats facing our world. Are there other planets in the Universe with the unique ability to support life—or is there truly no place like home? HISTORY™ ventures into the uncharted territory of outer space through the visions, studies, and predictions of scientists and explorers, utilizing cutting-edge computer graphics and stunning footage to bring the universe down to Earth.

Now available on Blu-ray Disc for the first time, HISTORY™ presents all 13 visually arresting, awe-inspiring episodes from THE UNIVERSE: THE COMPLETE SEASON ONE plus the feature-length documentary *Beyond the Big Bang*. From the planets to the stars and out to the edge of the known universe, history and science collide in this epic exploration of space and its limitless potential.

- Available on Blu-ray Disc for the first time, THE UNIVERSE is a breathtaking exploration of far-away planets, exploding stars, black holes, alien life-forms, and much more.
- All 13 episodes are filled with state-of-the-art computer graphics and stunning NASA images plus the feature-length bonus documentary *Beyond the Big Bang*.
- Already a best-selling franchise, *Season Two* was expanded to 18 episodes and the set is timed to release during the highly anticipated *Season Three* broadcast.
