

The outrageous cult teen sci-fi series is finally available on DVD

Based on the classic John Hughes film, this hilarious hit science-fiction series follows high school nerds Wyatt and Gary as they struggle with unpopularity, a dating drought, and the endless torment of Wyatt's older brother, Chett. They use their computer skills to build Lisa, whose supermodel good looks and super-genius brain is trumped only by her power to grant wishes.

The hit show ran on the USA Network for five years, was syndicated on the Sci Fi Channel and the Encore WAM Channel, and has a large, committed fan base. The complete first two seasons of the trio's uproarious misadventures are collected here for the first time on DVD—perfect for longtime fans and sci-fi lovers.
