

SYNOPSIS This special collection attempts to unravel the mysteries of Christianity that have existed for thousands of years. Archeological and historical sleuthing will reveal the details behind the following puzzles: The sea journey Jesus took and why it's been covered up. How Mount Vesuvius might have been more responsible for the spread of Christianity than Apostles Peter and Paul. What happened to the nails discovered in the tomb of the man who sent Jesus to the cross? Who was Simon of Perea and was he the messiah before Jesus? Did Christianity thrive within the very army that was supposed to suppress it? Did Christianity conquer Rome or did pagan Rome conquer Christianity? The answers and more lie within.
