

# CLASH OF THE CAVEMEN

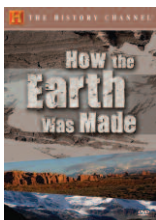

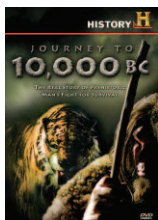

## The epic battle of brains versus brawn that determined the course of human history

In CLASH OF THE CAVEMEN, cinematic re-creations and state-of-the-art CGI bring to life the battle between the Neanderthals—stocky, powerful and able to tolerate intense pain—and their foes, the Cro-Magnons—weaker and more fragile but with a superior brain capable of complex thought. This cinema-quality documentary from HISTORY™ uses the latest science to re-create the surroundings and dangers they endured: massive four-legged predators, punishing temperatures, and the unrelenting threat of starvation.

Cutting-edge archaeological and anthropological research, including data from the ongoing Neanderthal genome mapping project at Germany's Max Planck Institute, lends up-to-the-minute realism and accuracy to this cataclysmic fight to the finish.

- In the wake of the Hollywood blockbuster *10,000 B.C.*, HISTORY™ follows both Neanderthals and Cro-Magnons through a season of survival.
- Through cinema-like recreations and photo-real CGI, HISTORY™ brings to life the climatic battle that set the stage for the development of our species.
- This special has access to exciting new research in anthropology, archeology and the genome mapping project.

### RELATED & RECOMMENDED

**JOURNEY TO 10,000 B.C.** Viewers will go back in time to when early humans are just starting to inhabit North America and huge climate fluctuations cause a mini-Ice Age. DVD AAAE113450

**HOW THE EARTH WAS MADE** HISTORY™ journeys back in time to show the creation of Earth's land masses, the birth of the first complex creatures, and devastating extinctions—before speculating on the future when all life becomes extinct. DVD AAAE110540
