

THE HISTORY CHANNEL® PRESENTS

ENGINEERING AN EMPIRE™

Rediscover architectural triumphs from the world's greatest empires.

Following the success of the Emmy® Award-winning *Rome: Engineering an Empire*, the new series ENGINEERING AN EMPIRE examines history's most magnificent and sophisticated civilizations through the lens of their astounding engineering feats. Walk through the narrow streets of ancient Greece and Carthage and follow the massive expansion of the Roman and Chinese Empires. Trace the rise of antiquity's greatest leaders and discover the mighty dynasties, architectural marvels, and urban planning feats that altered the course of history.

Narrated by actor and historian Peter Weller, all 12 documentaries in the ENGINEERING AN EMPIRE collection chronicle the stunning feats of ingenuity and ambition that gave birth to modern civilization.

- The follow-up series to the critically acclaimed *Rome: Engineering an Empire* (winner of two Emmy® Awards) and *Egypt: Engineering an Empire*.
- The two-hour premiere of *Egypt: Engineering an Empire* brought in nearly 1.5 million total viewers, making it the network's most-watched series launch.
- Through the use of advanced CGI, Hollywood-style dramatizations, expert interviews and on-location shooting, this series will bring these amazing achievements to life in a way never before seen.
- Hosted by actor and historian Peter Weller.
- Segments include world famous monuments such as Agamemnon's Tomb, the Great Wall of China, the Kremlin, Westminster Palace, the Eiffel Tower, and many more.
