

Surviving HISTORY

History's most terrifying weapons and torture devices are recreated and put to the test

Master craftsmen from the renowned Scarefactory in Columbus, Ohio take on a spellbinding challenge from HISTORY™: to re-create some of the most inventive and fascinating devices ever made. In an effort to understand ancient inventions and weaponry, the team fabricates the elements just as they would have been made centuries and even millennia ago—and then goes on to test them! This 3-DVD set illuminates China's early use of gunpowder and rocket-propelled fire arrows, the battering rams and missile launchers of the Romans, as well as the medieval morning star mace and semiautomatic Chinese repeating crossbow. SURVIVING HISTORY documents the fiendish ingenuity that went into inventions of persuasion and punishment. Not for the faint of heart, the set is an eye-opening, informative journey into humankind's undeniably dark, brutal side.

- SURVIVING HISTORY illuminates history across many eras including early China, the Roman Empire, and Medieval.
- Includes episodes featuring the re-creation of devices such as the iron maiden, Judas cradle, strappado, whirligig, rack, shame flute, chastity belt, and heretic's fork.
- Using the same materials available during the era master craftsmen not only reconstruct these deadly devices but test them on real people.

3 DVDs in shelf-space friendly packaging!
