

**SYNOPSIS** Director and host James Fox assembles the most credible UFO witnesses from around the world to testify on the subject and share their experiences and observations. Air Force generals, astronauts, military and commercial pilots, government and FAA officials from seven countries gather at the National Press Club in Washington D.C. to tell stories that, as former Arizona governor Fife Symington states, "will challenge your reality." These accounts reveal a behind-the-scenes U.S. operation whose policy, in the eyes of some observers, seems to involve confiscation of substantiating evidence from close encounters--to the extent that even Presidents have failed to get straight answers.
