

# LOST WORLDS™

## A cutting-edge new series from THE HISTORY CHANNEL® brings long-lost cities back to life

Incorporating gorgeous footage and cutting edge technology with incredible stories from around the globe, this series brings to life the lost worlds of vanished civilizations. Combining all-new research with stunning CGI, ancient cities are accurately and beautifully rebuilt, wall by virtual wall and building by building. Whether it is Athens under the rule of Pericles or the Jerusalem that Jesus knew, the great cities of the past defined the eras in which they were built. Due to the vagaries of history and the passage of time, they have been lost to us for millennia. Now, through these high-tech recreations, viewers can fly overhead, walk the ancient cities' streets, and immerse themselves in history's lost worlds.

- Cutting-edge technology and a team of historical detectives bring some of the most pivotal places and events in history back to life.
- Places and events explored include the once-secret facilities where America created the atomic bomb, the pivotal battle at Stirling Bridge, ancient Romania's real life Dracula, the chambers of Churchill's secret bunkers, Biblical Jerusalem, the lost city of Atlantis and many more.
- Bonus features include the pilot episode revisiting the lost city of Palenque.
