

# Origins of the MAFIA

## Uncover the history of one of the world's most powerful crime organizations

For decades, gritty stories about the Mafia have occupied the pages of popular literature and dominated the big screens of Hollywood. And yet, few people know the real story behind how and when this formidable system of organized crime actually began.

From the earliest days of the Mafia in 1556 through its modern-day incarnation in the United States, ORIGINS OF THE MAFIA follows the evolution of the most dominant criminal organization in history, revealing the origins and secrets of the hydra-headed society, the reason for its existence and its survival for over four centuries. Filmed entirely in Sicily and based on extensive research, the truth behind the media's portrayal of Mafia life is more spellbinding and sensational than fiction.

- Starring the Oscar®- and Emmy®-nominated Lee J. Cobb (*On the Water Front*, *Death of a Salesman*), Joseph Cotton (*Citizen Kane*), and the Golden Globe® winner Edward Albert (*Butterflies are Free*).
- Timed to release with the final season of *The Sopranos* which premieres April 2007 on HBO.
- Based on extensive research and filmed entirely in Sicily, offering viewers an inside look at the original stomping ground of the Italian Mafia.
