The most sensational kidnapping in American History

This award-winning film presents a gripping, unparalleled account of the most sensational kidnapping in American history. On February 4th, 1974, newspaper heiress Patty Hearst was boldly snatched from her apartment by a radical terrorist group called the Symbionese Liberation Army (SLA). Two months after her capture—as the media camped out in swarms on the Hearst lawn—Patty shocked the nation by changing her name to Tania, and with assault rifle in hand joining her captors in robbing a bank. Utilizing never-before-seen archive footage, audio recordings, and exclusive interviews with former SLA members, director Robert Stone presents an eye-opening chronicle of this bizarre affair, which marked America's first-ever direct encounter with modern media-driven political terrorism.
