We are all too familiar with the statistics. In the last 20 years, HIV/AIDS has spread across barriers and affected people in every corner of the world. A total of 40 million people worldwide are currently infected with the HIV virus, and that number is growing. But beyond these numbers lie the personal stories of millions of people, and in this highly acclaimed film, award-winning filmmaker **Rory Kennedy** offers an intimate perspective on the unique challenges of living with the disease. Narrated by **Danny Glover**, this theatrical version of the five-part HBO series tells five remarkable stories from across the globe, revealing the heartaches and triumphs of real people coping with the stigma and effects of this devastating epidemic. With a sensitivity unparalleled by any other account of the AIDS crisis to date, PANDEMIC: FACING AIDS is an unforgettable viewing experience. And whether you have been touched by the devastation of AIDS on a personal or global level, PANDEMIC: FACING AIDS is undeniably a "must-see" film for all.

- From award-winning filmmaker **Rory Kennedy** (*American Hollow*, *A Boy's Life*) and as seen as a five-part mini series on HBO.
